**HEIP Research Support Team  
National University of Battambang**

**Dear Mr. Hum Chan,**

I am writing to express my interest in the Mobile Developer Internship under the HEIP Research Proposal program. As a junior mobile developer with a focus on Flutter, I have built several impactful applications, including a rental room app and a weather app, utilizing Flutter and Firebase to deliver efficient, user-friendly solutions.

In my recent Flutter Developer Internship at NUBB, I had the opportunity to lead a team in developing a full-stack lab booking system. This experience sharpened my skills in project management, teamwork, and problem-solving. Along with my academic background in Information Technology, I believe I am well-positioned to contribute effectively to your research initiatives.

I am excited about the opportunity to apply my skills and passion for innovation to your program, and I look forward to discussing how my experience aligns with your goals. Thank you for considering my application.

**Sincerely,  
Ms. Long Sreynich**
